

## QUICK NEWS UPDATES

**SOCIAL THEME EVENINGS** Starting this Fall Thunder Bay Observatory will be hosting regular small group social evenings. (10-16 people) Perfect for the individual looking to meet others with similar interest, or for couples or small groups looking for a different experience. The Evening will include cocktails and a variety of appetizers, a informative and visual introduction into astronomy with a focus on a particular subject, and then a hands on tour of the universe through the telescope. So far themes on the list include:

- Life out there...UFO's, Extra Solar Planets, Seti..etc
- Astronomical Research...whats the scientific community up to?
- Space Travel . History and Future of
- Big Bang to Black Holes ...the violence in our universe
- The Scale of things!If your interested in signing up for a Theme Night...let me know.
